Normal wear and tear from everyday use may cause your sterilizer loading car or transfer carriage to become weak, difficult or even dangerous to move. Help maintain efficient workflow and a safe work environment with a loading car and transfer carriage maintenance contract.

One Integrated Approach to Healthcare.
Contact your STERIS representative, or call 1-800-548-4873 (choose prompt 3, then 1) to see how our maintenance contracts keep your equipment operating efficiently!

*All parts required to perform preventive maintenance or to perform unscheduled repairs must be a STERIS OEM part.

**Welding service available separately. STERIS will coordinate upon request.
