ELEVATE EXPECTATIONS

Reliance™ Endoscope Drying and Storage Cabinets

One Integrated Approach to Healthcare.
Establish a higher standard for your patients and endoscopes

There’s a better way.
The Reliance™ Endoscope Drying and Storage Cabinets set a higher standard to store, dry and manage your scopes. These innovative cabinets help assure that your scopes are stored properly in a drying environment.

**PERFORMANCE**

**Thoroughly Dry**
- Keep your storage environment aseptic and dry through internal air pressure with an average of an air exchange every 20 seconds
- Help prevent microbial growth with channel-purging air flow to facilitate drying of internal lumens

**Insight Inside**
- Plan inventory and track hang time information of scopes
- Available inventory at-a-glance
- Easy scan badge access maintains scope security
- Robust data collection for reporting on scope use

**Vertical is Best**
- Prevent scopes from touching and damaging each other
- Maintain ideal shape without causing potentially damaging coil memory
- Eliminate the chance of water draining onto other scopes

**Unparalleled Filtration – 3 is better**
- Three phase filtration removes 99.7% of particulates*  
- Main HEPA filter’s unique circular design delivers an unmatched surface filter area and is gasket-locked into place
- Final chamber filter helps ensure an aseptic chamber environment

* Up to 0.3 micron in size

There’s a better way.
The Reliance™ Endoscope Drying and Storage Cabinets meet or exceed all current recommendations and guidelines from CAN/CSA Z314.8-14.

Through a unique combination of features, you can stay compliant while also anticipating future requirements. These features include:
- HEPA filtered air
- Channel purging
- Digital access and tracking
- Vertical storage

Establish a higher standard for your patients and endoscopes
Reliance™ Endoscope Drying and Storage Cabinets

**DESIGN**

**Premium Construction**
- Available in a range of sizes and features to fit your needs
- Non-porous stainless steel chamber construction
- Easy startup with no additional hookups or external compressors needed
- Maximum visibility through tempered glass doors and internal LED lighting
- Easy cleaning with gasket-less doors and removable drip pan floor

**Reliance 6000 series cabinet with add-on storage attachment**
