Redefining Your Expectations

One Integrated Approach to Healthcare

Full steam ahead
Specifically designed for productivity and efficiency.

STERIS steam sterilizers process even the largest loads of instrument sets with effortless operation and efficiency, allowing you to better serve the OR’s increased case loads. Our complete portfolio of models provides you a choice that best fits your needs.

When we design our sterilizers, we consider your perspective. They are engineered for staff and patient safety. The sterilizers are also compliant with current AAMI tray weight and lumen testing recommendations.

Validated to safely sterilize per AAMI/AORN standards, providing you high-volume sterilization while maintaining compliance.

The AMSCO® 400 Small features hands-free foot pedal operation, smooth operating sleeved shelves and a non-heat conducting door surround that provide confident use.

Loads are based on 25 lb trays, largest available chamber.

Double Cart

Part workhorse. Part thoroughbred.

Safety and compliance come standard.

When we design our sterilizers, we consider your perspective. They are engineered for staff and patient safety. The sterilizers are also compliant with current AAMI tray weight and lumen testing recommendations.

Validated to safely sterilize per AAMI/AORN standards, providing you high-volume sterilization while maintaining compliance.

Validated immediate-use Prevac cycle.

The AMSCO Evolution Medium processes up to 20 trays (500 lbs) of instrument sets in one load. Self-aligning loading car and transfer carriage allows quick, hands-free loading and unloading and decreases the possibility of contact with hot surfaces.

• Receive results before your packs cool — 20-minute read with the Celerity™ Steam Biological Indicator
• Incubator results, sterilizer tape and load record are integrated to provide complete sterilization record in one place
• Reminders for regular maintenance tasks
Gaskets like none other
- Steam-activated to help ensure no air enters the chamber, providing worry-free operation.
- Easy to maintain since no lubrication is required and they carry a 2-year warranty.
- The rugged, corrosion-resistant, 316L stainless steel chamber includes a 15-year warranty to maximize return on investment.

Peace of mind
Avoid costly delays in downtime and keep up and running to satisfy the most demanding OR schedule.

Our AMSCO 600 Medium features front panels that allow safe and easy access to all components.

Huge impact. Small environmental footprint.

Reduce water consumption and utility costs with every load.
Experience substantial water and utility savings over the life of the equipment.
- Automatic utilities start-up and shut-down reduces energy usage.
- Electric vacuum pump significantly reduces water usage.
- RTD sensors minimize the amount of cooling water needed per cycle.

Earn LEED-HC credits for your sustainability projects.
- Add STERI-Green® or STERI-Green Plus® water recirculating systems and dramatically cut water usage.

High performance. Low maintenance.

- Achieves substantial water and utility savings over the life of the equipment.
- Add STERI-Green® or STERI-Green Plus® water recirculating systems and dramatically cut water usage.
- RTD sensors minimize the amount of cooling water needed per cycle.

Liqui-Jet ®  2 Detergent
This cleaning solution is specifically formulated to aid in the removal of deposits in the chamber, making cleaning easy and effective.

Simplicity fueled with options.

Large display screens and intuitive controls make operation easy. Familiarity and pre-programmed cycles remove complexity for operators.

Standardized one-touch controls across the product line provide a foundation of consistency and ease-of-use, an added benefit of working with STERIS products. The control display graphics are intuitive, easy-to-read and keep the team keenly aware of cycle progress.

Convenience and excellence in one provider.

Accessories work seamlessly with AMSCO.

Manual and Automated Loading Systems
Ergonomic, high-capacity loading systems help maximize staff safety and productivity. They’re both easy to maneuver and built to last.

Sterilization and Storage Baskets and Dividers
Simplify processing, transfer, and storage of sterilization pouches and small packs with our durable, easy-to-clean, stainless steel baskets and dividers. Small, large and extra-large sizes are available.

Sterility Assurance Products (SAP)
We offer a full complement of sterility assurance and quality control products – Air Removal Tests, Biological Indicators and Chemical Indicators that monitor or record critical performance characteristics of our steam sterilizers.

Integrated and Stand Alone Steam Generators
Flexible operation tailored to your facility’s needs.

Liqui-Jet® 2 Detergent
This cleaning solution is specifically formulated to aid in the removal of deposits in the chamber, making cleaning easy and effective.
Partners for life. Our Service offerings provide world-class support.

**Systems Planning** – Our experience and knowledge of the perioperative loop extends to offering expert advice. We can optimize the use of your space and workflow as well as recommend the right equipment for your needs.

**Education** – STERIS University provides unique, quality continuing education and training programs for both new and experienced clinicians and technicians.

**Diagnostic Solutions Program** – Full service lab testing and analysis of water, steam, and various substrates and recommendations to help ensure on-time delivery of clean, sterile instruments to the OR.

**Comprehensive Coverage** – Cost-saving product protection and preventive maintenance beyond the original factory warranty terms of STERIS equipment.

**SPM® Workflow Management System** – SPM allows for greater efficiency and more thorough workflow for all processes. SPM provides on-site staff training as well as a comprehensive database build, including customer information, surgical devices, and vendor catalogues.
The most innovative line-up in healthcare.

Our line of steam sterilizers are customizable through dozens of configurations and accessories that conform to your environment and workflow.

AMSCO® C-Series Certified Pre-owned Small Steam Sterilizer
Upgraded to current compliance, safety and technology standards.

AMSCO® 400 Small Steam Sterilizer
Uncompromising, safe and compliant small-footprint steam sterilization.

AMSCO® 400 Medium Steam Sterilizer
Efficient, compliant steam sterilization built for productive processing.

AMSCO® 400 Medium Steam Sterilizer
The sleek design meets your needs — maximizing throughput in a minimum footprint.

AMSCO® 600 Medium Steam Sterilizer
High-volume, largest-capacity steam sterilization with an inherently efficient design.

AMSCO® Evolution Medium Steam Sterilizer
High-performance, high-capacity steam sterilization for a broad mix of applications.

AMSCO® Evolution Floor Loader
High-volume, largest-capacity steam sterilization with an inherently efficient design.

Pre-owned.
Certified.
Compliant.
Performance and Value.

Green, Compliant & Productive.

Uncompromising, safe and compliant small-footprint steam sterilization.

Efficient, compliant steam sterilization built for productive processing.

High-volume, largest-capacity steam sterilization with an inherently efficient design.

High-performance, high-capacity steam sterilization for a broad mix of applications.

High-volume, largest-capacity steam sterilization with an inherently efficient design.

Maximize equipment uptime.

A team of service experts delivers the highest level of responsiveness and technical expertise in the industry helping to keep you running 24/7

4 hour phone response and
48 hour onsite response regardless of the primary service provider

Over 1,000 service technicians in North America, with three technicians assigned to every account
