Enteroscopy and Capsule Delivery Devices
STERIS Endoscopy offers a full line of single-use, enteroscopy devices.

BX00711152
sheath diameter 2.5mm
length 350cm
approximate net size 3x6cm

Designed for removal of excised polyps and foreign bodies within the convolutions of the small bowel.

» engineered with a strong, reinforced net for extra security

» transparent net material allows for continued examination with easy visibility
AdvancE® capsule delivery device

BX00711144
sheath diameter 2.5mm
length 180cm

Allows for direct endoscopic placement of video capsules* in patients who are unable to swallow or pass the capsule through the pylorus.

» facilitates endoscopic delivery of video capsules into the stomach or duodenum

» enables small intestinal surveillance in challenging patients with dysphagia, pill phobia, gastroparesis, anatomical abnormalities, and more

*Compatible with video capsules ranging from 10.5mm - 11.5mm in diameter and 23.5mm - 26.5mm in length
Carr-Locke injection needle
Articulator™ injection needle

**BX00711811**
sheath diameter 2.5mm
length 230cm
needle projection 5mm
needle gauge 25

**BX00711812**
sheath diameter 2.5mm
length 230cm
needle projection 5mm
needle gauge 23

**BX00711813** (Pentax 90 series)
sheath diameter 2.5mm
length 230cm
needle projection 5mm
needle gauge 25

When using a pediatric colonoscope for enteroscopy procedures, the Carr-Locke needle (230cm length) is an ideal choice for injection therapy.

» patented design ensures consistent needle projection every time in most tortuous conditions

» luer-lock, spring-loaded handle automatically retracts the needle, reducing the risk of inadvertent needle sticks and scope damage

**BX00711808**
sheath diameter 2.5mm
length 350cm
needle projection 5mm
needle gauge 25

The Articulator needle features a kink resistant, stainless steel sheath to pass smoothly and perform in fully articulated endoscopes.
Biopsy forceps
Bipolar hemostasis probes

State-of-the-art manufacturing processes ensure that these biopsy forceps are sharp and well aligned, allowing for precise tissue samples every time.

Short Throw™ polypectomy snare

BX00711101
sheath diameter 2.4mm
length 350cm
approximate snare size 25 x 54mm

The Short Throw snare offers superior loop memory and the comfort of one-handed deployment.

» short throw handle offers a 25% stroke travel reduction

» designed to work in tortuous conditions
Jumbo channel cleaning brush
Valve/Control head cleaning brush

**BX00711606**
sheath diameter 1.7mm
length 350cm
bristle diameter 7-9mm taper

Designed with a textured, non-slip catheter and soft, specially designed nylon bristles for maximum cleaning effort in scopes that range from 2.8mm and larger.

*For more devices available for single balloon and double balloon enteroscopes (230cm length), please visit www.steris.com.*

**BX00711610 / BX00711611**
bristle head length 4cm
bristle diameter 10mm

A full head of soft bristles to aid in the removal of gross material, and a grooved, barbell design for a comfortable, non-slip grip.
