SECTION 1: Identification

1.1. Product Identifier
Product Form: Mixture
Product Name: Vesta-Syde SQ® 128 Ready-To-Use Disinfectant
Product Code: 6343

1.2. Intended Use of the Product
Use of the substance/mixture: Quaternary Ammonium Disinfectant

1.3. Name, Address, and Telephone of the Responsible Party
Company: STERIS Corporation
Official Mailing Address:
P.O. Box 147
St. Louis, MO 63166 USA
Street Address:
7501 Page Avenue
St. Louis, MO 63133 USA
Telephone Number for Information: 1-800-444-9009 (Customer Service Scientific Products)
web: www.steris.com
e-mail: asksteris_msdss@steris.com

1.4. Emergency Telephone Number
Emergency Number: 1-314-535-1395 or CHEMTREC: 1-800-424-9300

SECTION 2: Hazards Identification

2.1. Classification of the Substance or Mixture
GHS-US classification
Flam. Liq. 3 H226
Eye Irrit. 2B H320
Full text of hazard classes and H-statements: see section 16

2.2. Label Elements
This label is regulated by the EPA under FIFRA. Refer to Section 15.1.
GHS-US Labeling
Hazard Pictograms (GHS-US):

Signal Word (GHS-US): Warning
H320 - Causes eye irritation.
Precautionary Statements (GHS-US):
P210 - Keep away from extremely high or low temperatures, ignition sources, and incompatible materials. - No smoking.
P264 - Wash hands, forearms, and other exposed areas thoroughly after handling.
P268 - Wear protective gloves, protective clothing, and eye protection.
P303+P361+P353 - If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
P305+P351+P338 - If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P337+P313 - If eye irritation persists: Get medical advice/attention.
P501 - Dispose of contents/container in accordance with local, regional, national, territorial, provincial, and international regulations.

2.3. Other Hazards
Other Hazards: Exposure may aggravate pre-existing eye, skin, or respiratory conditions.

2.4. Unknown Acute Toxicity (GHS-US)
No data available

SECTION 3: Composition/Information On Ingredients

3.1. Substances
Not applicable

3.2. Mixtures

**SECTION 4: First Aid Measures**

### First Aid Measures General:
Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible).

### First Aid Measures After Inhalation:
When symptoms occur: go into open air and ventilate suspected area. Obtain medical attention if breathing difficulty persists.

### First Aid Measures After Skin Contact:
Remove contaminated clothing. Drench affected area with water for at least 15 minutes. Obtain medical attention if irritation develops or persists.

### First Aid Measures After Eye Contact:
Rinse cautiously with water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Obtain medical attention.

### First Aid Measures After Ingestion:
Rinse mouth. Do NOT induce vomiting. Obtain medical attention.

#### Most Important symptoms and effects, both acute and delayed
- **Symptoms/Injuries:** Causes eye irritation.
- **Symptoms/Injuries After Inhalation:** Prolonged exposure may cause irritation.
- **Symptoms/Injuries After Skin Contact:** Prolonged exposure may cause skin irritation.
- **Symptoms/Injuries After Eye Contact:** Contact causes severe irritation with redness and swelling of the conjunctiva.
- **Symptoms/Injuries After Ingestion:** Ingestion may cause adverse effects.

#### Indication of Any Immediate Medical Attention and Special Treatment Needed
- If exposed or concerned, get medical advice and attention. If medical advice is needed, have product container or label at hand.

### SECTION 5: Fire-Fighting Measures

#### Extinguishing Media
- **Suitable Extinguishing Media:** Dry chemical powder, alcohol-resistant foam, carbon dioxide (CO₂). Water may be ineffective but water should be used to keep fire-exposed container cool.
- **Unsuitable Extinguishing Media:** Do not use a heavy water stream. A heavy water stream may spread burning liquid.

#### Special Hazards Arising From the Substance or Mixture
- **Fire Hazard:** Flammable liquid and vapor.
- **Explosion Hazard:** May form flammable or explosive vapor-air mixture.
- **Reactivity:** Reacts violently with strong oxidizers. Increased risk of fire or explosion.

#### Advice for Firefighters
- **Precautionary Measures Fire:** Exercise caution when fighting any chemical fire.
- **Firefighting Instructions:** Use water spray or fog for cooling exposed containers. In case of major fire and large quantities: Evacuate area. Fight fire remotely due to the risk of explosion.
- **Protection During Firefighting:** Do not enter fire area without proper protective equipment, including respiratory protection. Hazardous Combustion Products: Carbon oxides (CO, CO₂).
- **Other information:** Do not allow run-off from fire fighting to enter drains or water courses.

### SECTION 6: Accidental Release Measures

#### Personal Precautions, Protective Equipment and Emergency Procedures
- **General Measures:** Avoid breathing (vapor, mist, spray). Do not get in eyes, on skin, or on clothing. Keep away from heat, hot surfaces, sparks, open flames, and other ignition sources. No smoking. Avoid all contact with skin, eyes, or clothing.

1. **For Non-emergency Personnel**
   - **Protective Equipment:** Use appropriate personal protective equipment (PPE).
   - **Emergency Procedures:** Evacuate unnecessary personnel. Stop leak if safe to do so.

2. **For Emergency Responders**
   - **Protective Equipment:** Equip cleanup crew with proper protection.
   - **Emergency Procedures:** Upon arrival at the scene, a first responder is expected to recognize the presence of dangerous goods, protect oneself and the public, secure the area, and call for the assistance of trained personnel as soon as conditions permit. Ventilate area. Eliminate ignition sources.

#### Environmental Precautions
- Prevent entry to sewers and public waters. Avoid release to the environment.

#### Methods and Material for Containment and Cleaning Up
- **For Containment:** Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams. As an immediate precautionary measure, isolate spill or leak area in all directions.
- **Methods for Cleaning Up:** Clean up spills immediately and dispose of waste safely. Transfer spilled material to a suitable container for disposal. Contact competent authorities after a spill. Absorb and/or contain spill with inert material. Do not take up in combustible material such as: saw dust or cellulose material. Use only non-sparking tools.

#### Reference to Other Sections
- See Section 8: Exposure Controls and Personal Protection.

### SECTION 7: Handling And Storage

#### Precautions for Safe Handling
- **Additional Hazards When Processed:** Handle empty containers with care because residual vapors are flammable.
Precautions for Safe Handling: Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Avoid breathing vapors, mist, spray. Take precautionary measures against static discharge. Use only non-sparking tools. Avoid contact with skin, eyes and clothing.

Hygiene Measures: Handle in accordance with good industrial hygiene and safety procedures.

7.2. Conditions for Safe Storage, Including Any Incompatibilities

Technical Measures: Comply with applicable regulations. Take action to prevent static discharges. For bulk transfers, ground and bond container and receiving equipment. Use explosion-proof electrical, ventilating, and lighting equipment.

Storage Conditions: Store in a dry, cool place. Keep/Store away from direct sunlight, extremely high or low temperatures and incompatible materials. Store in a well-ventilated place. Keep container tightly closed.

Incompatible Products: Strong acids, strong bases, strong oxidizers.

7.3. Specific End Use(s)

Quaternary Ammonium Disinfectant

SECTION 8: Exposure Controls/Personal Protection

8.1. Control Parameters

For substances listed in section 3 that are not listed here, there are no established Exposure limits from the manufacturer, supplier, importer, or the appropriate advisory agency including: ACGIH (TLV), AIHA (WEEL), NIOSH (REL), OSHA (PEL), Canadian provincial governments, or the Mexican government.

8.2. Exposure Controls

Appropriate engineering controls: Ensure adequate ventilation.
Personal protective equipment should be selected based upon the conditions under which this product is handled or used. The following pictograms represent the minimum requirements for personal protective equipment. Protective clothing. Gloves. Protective goggles.

Hand protection: Wear rubber gloves.
Eye protection: Wear chemical goggles or safety glasses.
Skin and body protection: Wear suitable protective clothing.
Respiratory protection: Work in well-ventilated zones or use proper respiratory protection. Wear appropriate mask.
Other information: Do not eat, drink or smoke during use.

9.2. Other Information
No additional information available

SECTION 10: Stability And Reactivity

10.1 Reactivity:
Reacts violently with strong oxidizers. Increased risk of fire or explosion.

10.2 Chemical Stability:
May form flammable or explosive vapor-air mixture but does not sustain combustion

10.3 Possibility of Hazardous Reactions:
Hazardous polymerization will not occur.

10.4 Conditions to Avoid:
Direct sunlight, extremely high or low temperatures, heat, hot surfaces, sparks, open flames, incompatible materials, and other ignition sources.

10.5 Incompatible Materials:
Strong acids, strong bases, strong oxidizers.

10.6 Hazardous Decomposition Products:
None expected under normal conditions of use.

SECTION 11: Toxicological Information

11.1. Information On Toxicological Effects
Acute Toxicity: Not classified
Vesta-Syde SQ® 128 Ready-To-Use Disinfectant
Safety Data Sheet
According to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

### LD50 Oral Rat
- Vesta-Syde® SQ 128 Ready-To-Use Disinfectant: >5000 mg/kg
- Isopropyl alcohol (67-63-0): 4059 mg/kg

### LC50 Oral Rat
- Vesta-Syde® SQ 128 Ready-To-Use Disinfectant: >5000 mg/kg
- Isopropyl alcohol (67-63-0): 329 mg/kg

### LC50 Dermal Rat
- Vesta-Syde® SQ 128 Ready-To-Use Disinfectant: 2001 mg/kg
- Isopropyl alcohol (67-63-0): 2001 mg/kg

### LC50 Inhalation Rat
- Vesta-Syde® SQ 128 Ready-To-Use Disinfectant: > 5.44 mg/l
- Isopropyl alcohol (67-63-0): 329 mg/kg
- Didecyldimethylammonium chloride (7173-51-5): 329 mg/kg

#### Skin Corrosion/Irritation
- Not classified

#### pHS
- Vesta-Syde® SQ 128 Ready-To-Use Disinfectant: 10.9
- Isopropyl alcohol (67-63-0): 10.9

#### Eye Damage/Irritation
- Vesta-Syde® SQ 128 Ready-To-Use Disinfectant: Causes eye irritation.
- Isopropyl alcohol (67-63-0): Causes eye irritation.

#### Respiratory or Skin Sensitization
- Not classified

#### Germ Cell Mutagenicity
- Not classified

#### Teratogenicity
- No data available

#### Carcinogenicity
- Not classified

#### Reproductive Toxicity
- Not classified

#### Specific Target Organ Toxicity (Single Exposure)
- Not classified

#### Specific Target Organ Toxicity (Repeated Exposure)
- Not classified

#### Aspiration Hazard
- Not classified

#### Symptoms/Injuries After Inhalation
- Prolonged exposure may cause irritation.

#### Symptoms/Injuries After Skin Contact
- Prolonged exposure may cause skin irritation.

#### Symptoms/Injuries After Eye Contact
- Contact causes severe irritation with redness and swelling of the conjunctiva.

#### Symptoms/Injuries After Ingestion
- Ingestion may cause adverse effects.

#### Chronic Symptoms
- None expected under normal conditions of use.

### SECTION 12: Ecological Information

#### 12.1. Toxicity
- Ecology - General: Toxic to aquatic life.

- Vesta-Syde SQ® 128 Ready-To-Use Disinfectant
  - LC50 Fish: <400 mg/l (Exposure time: 96 h - Species: Fathead Minnows)

- Isopropyl alcohol (67-63-0)
  - LC50 Fish 1: 9640 mg/l (Exposure time: 96 h - Species: Pimephales promelas [flow-through])
  - EC50 Daphnia 1: 13299 mg/l (Exposure time: 48 h - Species: Daphnia magna)
  - EC50 Other Aquatic Organisms 1: 1000 mg/l (Exposure time: 96 h - Species: Desmodesmus subspicatus)
  - LC50 Fish 2: 11130 mg/l (Exposure time: 96 h - Species: Pimephales promelas [static])
  - EC50 Other Aquatic Organisms 2: 1000 mg/l (Exposure time: 72 h - Species: Desmodesmus subspicatus)

- Didecyldimethylammonium chloride (7173-51-5)
  - LC50 Fish 1: 0.39 mg/l
  - EC50 Daphnia 1: 0.018 mg/l
  - NOEC chronic algae: 0.025 mg/l

#### 12.2. Persistence and Degradability
- The surfactant(s) contained in this preparation comply with the biodegradability criteria as laid down in Regulation (EC) No. 648/2004 on detergents. Data to support this assertion are held at the disposal of the competent authorities of the Member States and will be made available to them, at their direct request or at the request of a detergent manufacturer.

#### 12.3. Bioaccumulative Potential
- Isopropyl alcohol (67-63-0): Not established.

#### 12.4. Mobility in Soil
- No additional information available

#### 12.5. Other Adverse Effects
- Other Information: Avoid release to the environment.
SECTION 13: Disposal Considerations

13.1. Waste treatment methods

Waste disposal recommendations: Do not contaminate food, feed, or water by storage or disposal. PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Additional information: CONTAINER DISPOSAL: (For Packet:) Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available or dispose of packet in trash. (For ≤ 5 gal.): Non refillable container. Do not reuse or refill this container. Offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke. Clean container promptly after emptying. Triple rinse as follows: Empty remaining contents and dispose of as pesticide waste. Fill the container ¼ full with water and recap. Shake for 10 seconds. Dispose of rinsate as pesticide waste. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

(For > 5 gal.): Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available or puncture and dispose of in a sanitary landfill or by incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke. Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents and dispose of as pesticide waste. Fill the container ¼ full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Dispose of rinsate as pesticide waste. Repeat this procedure two more times.

Ecology - waste materials: Avoid release to the environment.

SECTION 14: Transport Information

In accordance with ADR / RID / ADNR / IMDG / ICAO / IATA
Not regulated for transport.

14.1. UN number
Not applicable.

14.2. UN proper shipping name
Not applicable.

14.3. Transport hazard class(es)
Not applicable.

14.4. Packing group
Not applicable.

14.5. Environmental hazards
No supplementary information available.

14.6. Special precautions for user

14.6.1. Overland transport
No additional information available.

14.6.2. Transport by sea
No additional information available.

14.6.3. Air transport
No additional information available.

SECTION 15: Regulatory Information

15.1. US Federal Regulations

EPA FIFRA Pesticide Product Notice
This chemical is a pesticide product registered by the United States Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets (SDS), and for workplace labels of non-pesticide chemicals. The hazard information required on the pesticide label is reproduced below. The pesticide label also includes other important information, including directions for use.

EPA FIFRA Signal Word
Caution

EPA FIFRA Hazard Statements
Keep Out Of Reach of Children

EPA FIFRA Precautionary Statements
Harmful if absorbed through skin.

Causes moderate eye irritation.

Avoid contact with skin, eyes or clothing.

Wear long-sleeved shirt, long pants, socks, shoes and waterproof or chemical-resistant gloves when handling.

Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.
Remove and wash contaminated clothing before reuse.

### Vesta-Syde SQ® 128 Ready-To-Use Disinfectant

#### SARA Section 311/312 Hazard Classes
- **Fire hazard**
- Immediate (acute) health hazard

#### Water (7732-18-5)
- Listed on the United States TSCA (Toxic Substances Control Act) inventory

#### Isopropyl alcohol (67-63-0)
- Listed on the United States TSCA (Toxic Substances Control Act) inventory
- Subject to reporting requirements of United States SARA Section 313

#### Didecyldimethylammonium chloride (7173-51-5)
- Listed on the United States TSCA (Toxic Substances Control Act) inventory

### 15.2 US State Regulations

#### Isopropyl alcohol (67-63-0)
- U.S. - Massachusetts - Right To Know List
- U.S. - New Jersey - Right To Know Hazardous Substance List
- U.S. - Pennsylvania - RTK (Right to Know) - Environmental Hazard List
- U.S. - Pennsylvania - RTK (Right to Know) List

### 15.3 Canadian Regulations

#### Isopropyl alcohol (67-63-0)
- Listed on the Canadian DSL (Domestic Substances List)
- Listed on the Canadian IDL (Ingredient Disclosure List)

#### Didecyldimethylammonium chloride (7173-51-5)
- Listed on the Canadian DSL (Domestic Substances List)

This product has been classified in accordance with the hazard criteria of the Hazardous Products Regulations (HPR) and the SDS contains all of the information required by HPR.

### SECTION 16: Other Information, Including Date Of Preparation Or Last Revision

- **Date of Preparation or Latest Revision**: 04/02/2019
- **Other Information**: This document has been prepared in accordance with the SDS requirements of the OSHA Hazard Communication Standard 29 CFR 1910.1200.
