## Section 1: Identification of the substance/mixture and of the company/undertaking

### 1.1. Product identifier

<table>
<thead>
<tr>
<th>Product form</th>
<th>Mixture</th>
</tr>
</thead>
<tbody>
<tr>
<td>Trade name</td>
<td>ProKlenz NpH® High Performance Neutral Detergent</td>
</tr>
<tr>
<td>Product code</td>
<td>1430</td>
</tr>
</tbody>
</table>

### 1.2. Relevant identified uses of the substance or mixture and uses advised against

- **Use of the substance/mixture**: Product for Industrial Use only
- **High Performance Neutral Detergent**

### 1.3. Details of the supplier of the safety data sheet

**STERIS Corporation**
P. O. Box 147, St. Louis, MO 63166, US
Telephone Number for Information: 1-800-444-9009 (Customer Service-Scientific Products)

### 1.4. Emergency telephone number

**Emergency number**: US Emergency Telephone No.1-314-535-1395 (STERIS); 1-800-424-9300 (CHEMTREC)

## Section 2: Hazards Identification

### 2.1. Classification of the substance or mixture

**GHS-US classification**

- Acute Tox. 5 (oral) H303
- Acute Tox. 5 (dermal) H313
- Skin Corr. 2 H315
- Eye Dam. 2A H319

### 2.2. Label elements

**GHS-US labelling**

- **Hazard pictograms (GHS-US)**: 

  ![GHS07](image)

  - **Signal word (GHS-US)**: Warning
  - **Hazard statements (GHS-US)**:
    - H303 - May be harmful if swallowed
    - H313 - May be harmful in contact with skin
    - H315 - Causes skin irritation
    - H319 - Causes serious eye irritation
  - **Precautionary statements (GHS-US)**:
    - P264 - Wash hands thoroughly after handling
    - P280 - Wear protective gloves/protection clothing and eye/face protection
    - P302+P352 - IF ON SKIN: Wash with plenty of water
    - P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
    - P310 - Immediately call a POISON CENTER or doctor
    - P312 - Call a POISON CENTER or doctor if you feel unwell
    - P332+P313 - If skin irritation occurs: Get medical advice/attention
    - P337+P313 - If eye irritation persists: Get medical advice/attention
    - P362+P364 - Take off contaminated clothing and wash it before reuse

### 2.3. Other hazards

No additional information available

## Section 3: Composition/information on ingredients

### 3.1. Substance

Not applicable
3.2. Mixture

SECTION 4: First aid measures

4.1. Description of first aid measures

First-aid measures general : Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible).
First-aid measures after inhalation : Remove to fresh air and keep at rest in a position comfortable for breathing. If not breathing, give artificial respiration. Get medical attention.
First-aid measures after skin contact : Immediately flush skin with plenty of water for at least 15 minutes. Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. Get medical advice/attention.
First-aid measures after eye contact : In case of contact with eyes flush immediately with plenty of flowing water for 10 to 15 minutes holding eyelids apart and consult an ophthalmologist. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately get medical attention.
First-aid measures after ingestion : If victim completely conscious/alert. Rinse mouth. Do NOT induce vomiting. Immediately call a POISON CENTER or doctor/physician. Give water or milk if the person is fully conscious.

4.2. Most important symptoms and effects, both acute and delayed

Symptoms/injuries after skin contact : Frequent or prolonged contact with skin may cause dermal irritation.
Symptoms/injuries after eye contact : Causes serious eye irritation.

4.3. Indication of any immediate medical attention and special treatment needed

No additional information available

SECTION 5: Firefighting measures

5.1. Extinguishing media

5.2. Special hazards arising from the substance or mixture

5.3. Advice for firefighters

Firefighting instructions : Exercise caution when fighting any chemical fire. Prevent fire-fighting water from entering environment.
Protective equipment for firefighters : Use self-contained breathing apparatus. Do not enter fire area without proper protective equipment, including respiratory protection.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

General measures : Do not breathe fumes, vapors. Avoid contact with skin, eyes and clothes.

6.1.1. For non-emergency personnel

Protective equipment : Wear protective gloves and eye/face protection. For further information refer to section 8: ”Exposure controls/personal protection”.
Emergency procedures : Evacuate unnecessary personnel. Stop leak if safe to do so.

6.1.2. For emergency responders

Protective equipment : Equip cleanup crew with proper protection.
Emergency procedures : Ventilate area.
6.2. Environmental precautions

Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters.

6.3. Methods and material for containment and cleaning up

Methods for cleaning up: Comply with applicable local, national and international regulation. Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Collect all waste in suitable and labelled containers and dispose according to local legislation. Store away from other materials. Small spills: wipe away or flush away with water. Small spills may be flushed to a sanitary sewer with copious amounts of water.

6.4. Reference to other sections

See Heading 8. Exposure controls and personal protection.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Precautions for safe handling: Read label before use. Provide good ventilation in process area to prevent formation of vapour. Avoid all eye and skin contact and do not breathe vapour and mist. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work.

Hygiene measures: Take care for general good hygiene and housekeeping. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product.

7.2. Conditions for safe storage, including any incompatibilities

Technical measures: Provide adequate ventilation. A washing facility/water for eye and skin cleaning purposes should be present.

Storage conditions: Keep locked up and out of reach of children. Keep only in the original container in a cool, well ventilated place. Keep container closed when not in use.

Storage temperature: < 32 °C (< 90 °F)

Storage area: Store in dry, cool, well-ventilated area.

Special rules on packaging: Keep only in original container. Correctly labelled.

7.3. Specific end use(s)

No additional information available

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

8.2. Exposure controls

Appropriate engineering controls: Ensure adequate ventilation. Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure.
ProKlenz® NpH High Performance Neutral Detergent
Safety Data Sheet
according to the federal final rule of hazard communication revised on 2012 (HazCom 2012)

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state: Liquid
Appearance: Clear.
Colour: Colourless.
Odour: Mild. chemical odor.
Odour threshold: No data available
pH: 6.9 Approximately
Relative evaporation rate (butylacetate=1): No data available
Melting point: No data available
Freezing point: No data available
Boiling point: No data available
Flash point: No data available
Self ignition temperature: No data available
Decomposition temperature: No data available
Flammability (solid, gas): No data available
Vapour pressure: No data available
Relative vapor density at 20 °C: No data available
Relative density: No data available
Density: ca. 1.035 g/ml Specific Gravity
Solubility: Water: completely soluble
Log Pow: No data available
Log Kow: No data available
Viscosity, kinematic: No data available
Viscosity, dynamic: No data available
Explosive properties: No data available
Oxidising properties: No data available
Explosive limits: No data available

9.2. Other information

No additional information available

SECTION 10: Stability and reactivity

10.1. Reactivity

No additional information available

10.2. Chemical stability

Stable under normal conditions of use.

10.3. Possibility of hazardous reactions

Hazardous polymerization will not occur.

10.4. Conditions to avoid

Extremely high or low temperatures.
10.5. **Incompatible materials**

10.6. **Hazardous decomposition products**

**SECTION 11: Toxicological information**

11.1. **Information on toxicological effects**

**Acute toxicity**

**Skin corrosion/irritation**

- Not classified
  - pH: 6.9 Approximately

**Serious eye damage/irritation**

- Causes serious eye damage.
  - pH: 6.9 Approximately

**Respiratory or skin sensitisation**

- Not classified
  - Based on available data, the classification criteria are not met

**Germ cell mutagenicity**

- Not classified
  - Based on available data, the classification criteria are not met

**Carcinogenicity**

- Not classified

**Reproductive toxicity**

- Not classified
  - Based on available data, the classification criteria are not met

**Specific target organ toxicity (single exposure)**

- Not classified
  - Based on available data, the classification criteria are not met

**Specific target organ toxicity (repeated exposure)**

- Not classified
  - Based on available data, the classification criteria are not met

**Aspiration hazard**

- Not classified
  - Based on available data, the classification criteria are not met

**Potential Adverse human health effects and symptoms**

- Harmful if swallowed.

**SECTION 12: Ecological information**

12.1. **Toxicity**

**ProKlenz® NpH High Performance Neutral Detergent**

| LC50 fishes 1 | > 750 mg/l |

**Citric acid (77-92-9)**

| LC50 fishes 1 | 1516 mg/l (Exposure time: 96 h - Species: Lepomis macrochirus [static]) |
| EC50 Daphnia 1 | 120 mg/l (Exposure time: 72 h - Species: Daphnia magna) |
### 12.2. Persistence and degradability

**ProKlenz® NpH High Performance Neutral Detergent**

| Persistence and degradability | The surfactant(s) contained in this preparation complies(comply) with the biodegradability criteria as laid down in Regulation (EC) No. 648/2004 on detergents. Data to support this assertion are held at the disposal of the competent authorities of the Member States and will be made available to them, at their direct request or at the request of a detergent manufacturer. |

### 12.3. Bioaccumulative potential

**ProKlenz® NpH High Performance Neutral Detergent**

### 12.4. Mobility in soil

No additional information available

### 12.5. Other adverse effects

Other information: Avoid release to the environment.

### SECTION 13: Disposal considerations

#### 13.1. Waste treatment methods

Waste disposal recommendations: Dispose in a safe manner in accordance with local/national regulations. Product may be flushed to a sanitary sewer with copious amounts of water, if in accordance with local, state or national legislation. Dispose of in accordance with relevant local regulations.

Additional information: Do not re-use empty containers. Rinse with water. Empty containers should be taken for recycling, recovery or waste in accordance with local regulation.

Ecology - waste materials: Avoid release to the environment.

### SECTION 14: Transport information

In accordance with DOT

#### 14.1. UN number

No dangerous good in sense of transport regulations

#### 14.2. UN proper shipping name

Not applicable

#### 14.3. Transport hazard class(es)

Not applicable

#### 14.4. Packing group

Not applicable

#### 14.5. Environmental hazards

Dangerous for the environment: No

Marine pollutant: No

Other information: No supplementary information available

#### 14.6. Special precautions for user

14.6.1. Overland transport

No additional information available

14.6.2. Transport by sea

No additional information available

14.6.3. Air transport

No additional information available

14.6.4. Inland waterway transport

No additional information available

14.7. Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable
SECTION 15: Regulatory information

15.1. US Federal regulations

**Citric acid (77-92-9)**
Listed on the United States TSCA (Toxic Substances Control Act) inventory

**Octyl(dimethyl)amine Oxide (2605-78-9)**
Listed on the United States TSCA (Toxic Substances Control Act) inventory

15.2. International regulations
Not applicable

15.3. US State regulations
Not applicable

SECTION 16: Other information

Revision Date : 07/09/2019
Other information : None.

**NFPA health hazard**
: 1 - Exposure could cause irritation but only minor residual injury even if no treatment is given.

**NFPA fire hazard**
: 0 - Materials that will not burn.

**NFPA reactivity**
: 0 - Normally stable, even under fire exposure conditions, and are not reactive with water.

SDS US (GHS HazCom 2012)

The information on this sheet is not a specification and does not guarantee specific properties. The information is intended to provide general knowledge as to health and safety based upon our knowledge of the handling, storage and use of the product. It is not applicable to unusual or non-standard uses of the product or where instruction or recommendations are not followed.
